

A photograph of two women sitting at a table, smiling. The woman on the left has long dark hair and is wearing a pink jacket. The woman on the right is wearing a purple top and holding a white pen. On the table is a pink mug with the text 'Do it anyway.' and a white pen. In the background, there is a white shelving unit with books and other items. The overall atmosphere is warm and collaborative.

Your Checklist:

Top 10 skills
to *flourish* in
Early Childhood
leadership

What's inside

The principles of successful leadership are very similar to the principles for Educators in the EYLF. Yet, often the biggest mistakes are when these principles are left behind in working with adults.

Our profession (and leadership in general) is about bringing out the best in people.

Andrea Isitt, First Door Company Director

How to use this checklist

Are you looking to develop as an inspirational leader to empower your early childhood career? As a starting point, it's helpful to know how your current leadership skills rate.

By self-reflecting and assessing your skills in the four key areas of leadership: **emotional intelligence**, **collaborative relationships**, **team contribution** and **growth culture**, you will be able to gain valuable insight into your strengths and areas to develop. We have also provided an opportunity for you to gain feedback from a trusted colleague to support further insight into your leadership skill-set.

Our Story

First Door is a highly regarded Registered Training Organisation, established in 2012. Our team is dedicated to supporting the professional capability of Early Childhood educators, leaders and teams. We want to support YOU to flourish as an Early Childhood professional, to lead the way in exceptional education and care.

Our priority is to develop dedicated, passionate, innovative, knowledgeable and highly skilled leaders and educators, who are respectful and positive role models. In this way we will positively influence future generations, and provide children with the quality early childhood education and care they deserve.

What your scores say

30 - 45: Emerging leadership

Emerging leaders often have shown strong skills as a lead educator, role model, coach or mentor for others; so your natural career progression is to move into team leadership roles. However, it's often a steep learning curve to step up and to establish the fundamental skills for successful team leadership. This period can be unsettling personally and within the team. Emerging leaders become better equipped when they seek support to develop leadership skills and knowledge.

46 - 83: Developing leadership

You have established some sound leadership skills in certain areas, and some of these skills may have developed by learning 'the hard way' through trial and error. It's likely you are aware of your leadership strengths, but still need to develop leadership skills and knowledge in other areas. External influences and changes within your team require you to adapt your leadership priorities and this can lead to new development in leadership capacity.

84 - 90: Flourishing in leadership

Congratulations on successfully developing your leadership capability to an outstanding level. Your leadership has enabled your team to work both autonomously and collaboratively towards shared goals. The established professional learning culture within your team supports robust conversations and reflective practice towards continuous improvement. As an ongoing learner, you are likely to continue on your path for professional growth. Find out about completing the *Diploma of Leadership and Management* qualification with First Door.
